

Yassine Sinif

AI & Data Engineering

PROFILE

Engineering student in Artificial Intelligence and Data Science, entering my final year this October, with a strong interest in building AI-powered and full-stack solutions. I am seeking a 6-month final-year internship (PFE) starting February 2027, with the opportunity to transition into a full-time role after graduation.

PROFESSIONAL EXPERIENCE

AI Data Engineer Intern — Aptiv

Jun 2026 – Present

Tangier, Morocco · Maintenance Department

- Built a maintenance intervention tracking and KPI platform, replacing a manual Excel workflow, and owned its technical specification end to end.
- Designed a predictive maintenance module ranking machines by failure risk, combining statistical reliability modeling with an ML classifier.
- Built an agentic RAG assistant calling retrieval and clustering tools over past maintenance reports to surface similar cases and suggest likely causes.
- Validated the full pipeline on synthetic data before touching production, keeping sensitive data on-premise.

Software Engineering Intern — Web Agency

2024 – 2025 · 1 month

Casablanca, Morocco

- Developed a Laravel chatbot with database information retrieval.
- Built an automated PDF generation tool.

KEY PROJECTS

- **Nexora AI** — Call-center SaaS with on-premise RAG for automated ticket handling. FastAPI, React, TypeScript, PostgreSQL, ChromaDB, sentence-transformers, Ollama.
- **Stock market analytics platform** — Real-time streaming ingestion and processing. Python, Kafka, MySQL, Docker, Streamlit.
- **Medical multi-agent system** — Coordinated LLM agents for clinical workflows. LangGraph, LangChain, FastAPI, MCP, React, Flutter.
- **Plagiarism detection system** — Semantic similarity scoring with TF-IDF and SBERT. Python, Django.
- **Management applications** — POS, gym and optics desktop apps with NFC, facial recognition, QR. Java, JavaFX, MySQL.

CERTIFICATIONS

- DeepLearning.AI Data Engineering Professional Certificate — DeepLearning.AI & AWS · in progress, 2026
- Python for Data Science, AI & Development — IBM
- Software Engineering: Design and Project Management — HKUST
- La recherche documentaire — École Polytechnique

TECHNICAL SKILLS

LANGUAGES & FRAMEWORKS

Python, Django, FastAPI, React, React Native, JavaScript, TypeScript, Java, C++, C#, ASP.NET

DATA & ML

pandas, NumPy, scikit-learn, PyTorch, feature engineering, model evaluation, backtesting

LLM & RAG

LangChain, LangGraph, RAG pipelines, embeddings, ChromaDB, Ollama, prompt engineering

DATA ENGINEERING

PostgreSQL, SQL Server, SSIS, MySQL, MongoDB, Neo4j, Cassandra, Hadoop, ETL, Kafka, data warehousing

DEVOPS & TOOLS

Docker, Git, CI/CD, Linux, REST APIs

BI & CLOUD

Power BI, Tableau

LANGUAGES

Arabic — Native
French — B2
English — B2
Spanish — A2

EDUCATION

Engineering Degree, Computer Science & Networks

EMSI, Casablanca · 2022
Specialization: AI & Data Science
